Patrons would often find themselves shifting uncomfortably during long films. Can you imagine watching a three-hour epic while sitting on a hard surface? This lack of comfort led to a demand for better seating options.

The addition of armrests and cup holders further enhanced the experience. Wouldn't you agree that a cozy seat makes a movie more enjoyable?

## The Rise of Recliners and Luxury Seating

In recent years, the trend has shifted towards luxury seating options. Many theaters now offer **recliners** that allow patrons to fully recline, providing an unparalleled level of comfort. These seats often come equipped with features such as:

- Adjustable footrests
- Built-in USB charging ports
